

OPEN : OPportunities through European Networking

Welcome to the OPEN website, an Erasmus + strategic partnership for adult education

A 36-month project : From September 1st 2015 to August 31st 2018

The project aims to promote **EMPLOYMENT, SELF EMPLOYMENT** and the use of international **NETWORKS**, to foster employment in SMEs across Europe. **LANGUAGE** and **IT SKILLS** are vital, as are self confidence and a spirit of entrepreneurship.

Bearing in mind the current economical environment, all the centres have pointed out the lack of support in this area and have decided there is a common need to provide information and encouragement to help their students **GAIN ACCESS TO EMPLOYMENT** either at home or abroad, or aid their students in **SETTING UP THEIR OWN BUSINESS** and creating self employment.
